

6th Grade Science

Welcome! My Name is Mrs. Jacobs & I am looking forward to being your teacher this year. I know we will have a fun & successful year. My email is sjacobs@roseville.k12.mi.us

We will cover 3 main units this year:

Light & Matter

Thermal Energy

Weather, Climate & Water Cycling

Grading:

Students will be graded on assignments, notebooks, classroom assignments, projects and homework.

Classroom Assignments/Homework:

Classroom assignments will turn into homework if not completed in class. Students need to review notes and vocabulary as part of their daily homework.

*We do not use a book for every science unit. Students will receive a science book depending upon which unit we are covering. Many of our activities are hands on and they will receive worksheets based on the activity. Students need a 2 pocket folder to keep their papers organized. They also need a spiral bound notebook to write notes in daily.

Materials:

Students are responsible for bringing the following materials to class:

Pens/pencils- a pencil case is highly recommended!

2 pocket folder

(Return to Mrs. Jacobs)

Parents/Guardian,

Please write your email address, home phone number and/or cell phone number on the lines below.

Student's Name: _____

Parent or Guardian: _____

Email: _____

Home Phone: _____

Parent (Guardian) Cell Phone:

On the lines below please write a note telling me if there is anything additional I need to know about your child. This can include information about your child's likes/dislikes, strengths/weakness, any concerns you may have. Having this information allows me to understand your child better and helps me make the most of the 6th grade year.
